## Will Edible Art Give 'Artsy Fartsy' a New Meaning?

9/19/08 at 3:38 PM [Comment](#)

Saturday night at [3rd Ward](#), thirteen "food artists" will serve their work at [the Last Supper](#) multimedia festival, an offspring of a barbecue (the summer's last) that Coralina Meyers threw for her artist friends a few years ago. This year's concept is Landscape so expect bread rocks from Tattfoo Tan, organically sculpted chocolate by pastry chef Kat Korba, and the disturbingly lifelike sugar-cast syringes of Eve + Bowie. While Meyers stresses that no one should come to gorge, there's some real food too. Lamb, rice, and grilled vegetables will be served on her steel sculpture resembling the scales of justice. And if that's too deep, a dance party follows!
